Long description

The ultimate gaming PC – get a tough one!
The MEDION® ERAZER® X5733 D with the operating system Windows 8.1 delivers a sensational gaming PC configuration. The highlight is the ultra-high-end AMD Radeon™ R9 290X graphics card that ensures breathtaking performance and an exceptional gaming experience. The ultra-high display resolution provides users with an even more intensive and detailed insight into the gameplay. The features are rounded off by the AMD TrueAudio technology, which guarantees a more realistic and groundbreaking sound. The Intel® Core™ i7-4770K processor delivers maximum performance. As a result of the 4 processor cores each running at 3.5 GHz and a total 8 MB Cache, the MEDION® ERAZER® X5733 D can call on sufficient performance reserves.

The combination of the ultra-fast 512GB SSD (Solid State Drive) with a 2000 GB HDD enables quick access to the operating system and other frequently used applications. Alongside their low-noise operation, SSDs also offer lower access times thanks to higher read and write rates. Equipped with a 32 GB DDR3 RAM memory and the latest memory technology, the system can handle several processes simultaneously without any loss of performance. The 2,000 GB hard drives provides ample space for storing films, music and other files. And if you want to take your high scores along with you to a friend,

MEDION ERAZER PC X5733 D

simply save the data onto a hard drive in the hot-swap mobile rack, which you can swap conveniently and easily – even during operation.

The MEDION® ERAZER® X5733 D also features the MEDION® Data Port 3, which can be used to connect external MEDION® 6.35cm/2.5" and 8.89cm/3.5" hard disks******.

The cutting-edge USB 3.0 interface allows you to transfer image, audio and other files more quickly.** Enjoy films and videos in breathtaking quality and even create your own DVDs and CDs with the integrated DVD drive***.
